EXPRESS LABORATORY SERVICES AT ICIPC

WHAT IS AN EXPRESS LABORATORY SERVICE?

It is the laboratory service that will be provided within 24 hours, upon availability of the ICIPC laboratory facilities, once the compliant samples and payment have been received.

GENERAL CONDITIONS FOR THE EXPRESS LABORATORY SERVICES

- The service will be provided for thirteen (13) defined tests
 - The ICIPC will offer these tests according to the availability of their laboratories
 - The 24 hours apply once the compliant samples and the payment have been received
- The report will be sent in PDF file to the applicant's email
- The cost of the test will have a surcharge of 50% with respect to the regular price list of laboratory services
 - El valor del ensayo tendrá un recargo de 50 % con respecto al precio de lista del ICIPC

* WHICH ARE THE TESTS FOR THE EXPRESS LABORATORY SERVICES?

THERMOPLASTICS

DSC thermal analysis
TGA thermogravimetric analysis
Analysis by FTIR spectrometry
Melt Flow index (MFI)
Rotational rheometry
Hydraulic pressure failure test of pipes (short time)
Polymer density

ELASTOMERS

Vulcanization rheometry
Mooney's viscosity
Carbon black content by pyrolysis (TGA)
Hardness shore and IRHD
Taste, color and odor for rubber compounds
